Among the amendments to the National Defense Authorization Act are ones preventing Trump from launching a military strike on Iran without prior congressional approval, blocking emergency arms sales to Saudi Arabia, ending US military support to the Saudi-led coalition in Yemen, and repealing the 2002 authorization for the use of military force that authorized the Iraq War and many wars since.

Please write or email or call House Speaker Nancy Pelosi with this message:

We insist that the resulting bill include the Adam-Smith-Ro Khanna Yemen War Powers amendment to end all US participation in the famine-causing Saudi war in Yemen. We urge the Speaker to include Rep. Ro Khanna in the conference committee on the National Defense Authorization Act.
